PROFILE

I am a Computer Science student at Kwame Nkrumah University of Science and Technology (KNUST) with strong hands-on experience in backend and full-stack web development. Proven ability to design, develop, and deploy secure and scalable web applications, with emphasis on backend reliability and security best practices. Experienced in team leadership and project delivery. Seeking internship or junior-level opportunities in backend or web development.

CORE SKILLS

- Backend & Web Development
- RESTful API Design & Integration
- Authentication & Authorization
- Database Design & Optimization
- Secure Coding Practices
- API Security & Access Control (OWASP-aware)

TECHNICAL STACK

Languages: Python, JavaScript, Java, SQL

Frameworks: Django, Node.js

Databases: PostgreSQL, MySQL

Web: HTML, CSS

Tools: Linux, Git, GitHub

SELECTED PROJECTS

Scamornah – Scam Awareness & Verification Platform

Designed and maintained a live web platform for identifying scams, fraudulent domains, and social engineering threats. Implemented secure backend logic, robust input validation, and user-focused features to enhance platform reliability and security.

Technologies: Python, Django, PostgreSQL

Pentrax – Linux-Based Penetration Testing Tool

Developed a modular reconnaissance and penetration testing tool for Linux environments, focusing on automation, extensibility, and ethical security testing practices.

EDUCATION

BSc. Computer Science (Expected 2027)

Kwame Nkrumah University of Science and Technology (KNUST), Kumasi, Ghana

CERTIFICATIONS

- Cybersecurity Fundamentals – IBM
- Cloud Computing Fundamentals – IBM
- Backend Web Development – ALX
- Professional Foundations – ALX
- Programming in Python – Udemey

LEADERSHIP EXPERIENCE

Project Manager – Mobile Application Development (Level 200)

Led a 7-member team in the successful design and delivery of a mobile application. Coordinated task allocation, managed timelines, and facilitated collaboration between frontend and backend teams, ensuring timely delivery and adherence to project requirements.

ACHIEVEMENTS

- Successfully led and delivered a team-based mobile application project.
- Developed and deployed multiple real-world web and security-focused projects, including Scamornah and Pentrax.

ABILITIES

Backend Systems & APIs | Scalable Application Design | Cybersecurity & Ethical Hacking
